WHAT WE’RE ABOUT

We develop and realize web and mobile applications and software solutions for domestic and international clients with a high standard of design, usability, and quality. Besides the DACH-region we focus on the US market and value our clients based in Los Angeles, San Francisco, and Seattle. We operate internationally, but our headquarters are in Graz.

Do you want to work with and learn from A-level developers from more than 15 countries?

Then join Parkside and grow with us!

YOUR RESPONSIBILITIES

• Design and realize responsive web applications with a focus on user experience
• Develop software in an agile environment with state-of-the-art frameworks like Angular and React
• You actively participate and take ownership throughout the whole development process
• You closely cooperate with the designers, project managers, and QA

Some of the stuff our Frontend Developers have worked on before:

• Participated in various exciting projects ranging from advanced image editing over process management all the way to e-learning
• Developed creative tools for photo editing and graphic design used by millions of users every day
• Developed advanced algorithms for spatial planning and managed to wrap them into a simple and clean user interface completely hiding its complexity from the users
• Created and maintained one of the leading video platforms on the web completely from scratch
FRONTEND DEVELOPER (F/M)

JAVASCRIPT – ANGULAR – REACT – LESS/SASS

WHAT WE EXPECT

- Relevant professional or project experience in the area of frontend development or an ongoing/completed program of study at a university or technical college with an emphasis on computer science or software engineering
- Good command of JavaScript as well as experience with established frameworks such as Angular or React
- Skills in LESS/SASS, Webpack
- Nice-to-have: experience in the development of hybrid- and cross-platform apps
- Enthusiasm for User Experience (usability, accessibility) and a detail-oriented, quality-focussed work style
- You don’t speak German? No big deal, English is our main language

WHAT YOU GET

- Extraordinary projects for domestic and international clients with strong commitment to design, usability, and quality
- Better together & with a smile: an international and highly skilled team consisting of people from more than 15 different countries welcomes you from the first day on
- You work with state-of-the-art technologies, and you can choose your development devices
- A modern office environment in the beautiful university town of Graz known for its Mediterranean flair
- The Parkside Academy as well as participating in dev conferences (e.g. ReactiveConf, dotJS) gives you the opportunity to continuously improve your skills
- A long-term employment (full-time or part-time, min. 30 hours/week) with flexible working times and compensatory time-off
- Your monthly gross salary will be around € 2,400 to € 3,200 – (based on 38.5h/week, no All-In) depending on your qualifications and experience
