WE ARE EXPANDING OUR TEAM:

**PHP 5 SOFTWARE DEVELOPER (M/F)**

**Office Graz, Full-time, 38,5 hours/week**

**Sectors** IT and services | Computer software | Financial services

In order to integrate Wirecard’s payment APIs into online shop systems in an easy and smooth way, Wirecard CEE supplies free-of-charge plugins for the most popular eCommerce platforms. For the maintenance and development of new payment plugins, we are looking for professional software developers to join our teams.

**Your duties:**
- Design and realization of payment integrations for eCommerce platforms which meet market requirements.
- Development of new payment plugins to integrate the Wirecard payment APIs into online shop systems.
- Maintenance of existing payment plugins and ensuring their compatibility with online shop systems.
- Testing and peer review of code changes by other team members.
- Technical support, testing and execution of technical acceptances of outsourcing projects.
- Development and maintenance of unit tests, integration and system tests.
- Assistance of support teams and processing 3rd level support tickets.

**Your profile:**
- Willingness to learn, ability to take individual initiative, communication skills and ability to work in a team.
- Structured way of problem solving, high degree of self-organization and ability to quickly familiarize yourself with new technologies.
- Good command of spoken and written English.
- Completed technical qualification in information technology: University of Applied Sciences (FH), or Technical University (TU).
- **Must have:** More than 2 years of professional experience in development using PHP 5, JS, JQuery, HTML5 and CSS3.
- **Nice to have:** Ideally you have already gained practical experience in projects using e.g. Shopware, Magento, OXID, Gambio and in the development of shop plugins.
  - Good knowledge of PHP frameworks (Zend, Symfony, Yii, etc.)
  - Experience in using CI tools (Jenkins, Selenium, PHPUnit, Travis CI, Docker) is an advantage.

**This is what we offer:**
- Challenging and diversified tasks in the payment industry and working with international customers.
- Scope for introducing your own ideas and experience, working in a highly-motivated and successful team and actively shaping the future of the company.
- Further professional and personal development in a successful company that is growing strongly.
- Flexible work schedule with flexitime account.
- Attractive and competitive salary, overpayment is possible depending on your qualification and experience.
- Salary according to collective agreement is EUR 2.332,00
- Scope of negotiation depending on your qualification and professional experience.
  - EUR 2.332,00 - 3.500,00 gross/month.

**If we have piqued your interest, ...**
